Department of Civil and Environmental Engineering
Academic Year 2012-2013

Bachelor of Science in Civil Engineering: Typical Four-Year Program of Study

A student must complete 192 credits and earn a major/program and cumulative GPA of 2.50 or better in all courses taken at SU.

The following plan of study assumes that you have completed no degree requirements **(see list below)**. Your actual plan of study may vary from this example due to prior educational experience or individual goals. You should plan to work closely with your academic advisor to complete your personal educational plan and refer to the Catalog for pre-requisite information.
