Department of Civil and Environmental Engineering
Academic Year 2012-2013

Bachelor of Science in Mechanical Engineering: Typical Program of Study for Junior Transfer Students

A student must complete 180 credits and earn a major/program and cumulative GPA of 2.50 or better in all courses taken at SU.

The following plan of study assumes that you enter SU as a transfer student with 90 or more credits and you have completed CHEM 121, 131, MATH 134, 135, 136, 232, 233, 234, PHYS 121, 122, 123, CEEGR 221, and MEGR 105, 181, 210, 230, 281. Your actual plan of study may vary from this example due to prior educational experience or individual goals. You should plan to work closely with your academic advisor to complete your personal educational plan and refer to the Catalog for pre-requisite information.

Bachelor of Science in Mechanical Engineering			
	Fall Quarter	**Winter Quarter**	**Spring Quarter**
JR	*MEGR 281 (4)	*MEGR 371 (5)	*MEGR 304 (4)
	*MEGR 306 (1)	*ECEGR 315 (5)	*MEGR 324 (5)
	MEGR 321 (5)	*CEEGR 331 (4)	*MEGR 322 or 372 (4)
	MEGR 350 (5)		
SR	*MEGR 435 (5)	*MEGR 438 (4)	*MEGR Elective (3)
	MEGR 487 (3)	*MEGR 488 (4)	*MEGR Elective (3)
	Core II (5)	*MEGR Elective (3)	*MEGR 489 (3)
	Core II (5)	CEEGR 302 (3)	Core III (5)

Core Phase II	**Core Phase III**
PHIL 210	Ethics
THRS 200-299	THRS 300-399
	+Inter-disciplany
	+Senior Synthesis

+denotes the core curriculum requirement is satisfied within major

*denotes the course has a prerequisite or co-requisite

Note: These course options may be offered in different terms. Refer to the Catalog for specific course offerings.
