Gainful Employment Disclosure
Seattle University College of Science and Engineering
August 20, 2013

The following data are provided regarding stand-alone certificate programs offered by the Seattle University's College of Science and Engineering. The data are based on graduates of stand-alone certificate programs who completed between July 1, 2012 and June 30, 2013. The on-time graduation rate and all information on debt load are not required to be disclosed because the program graduated fewer than 10 students during this period.
