Department of Computer Science & Software Engineering
Academic year 2012-2013

Bachelor of Science in Computer Sciencewith a Business Specialization: Typical Four-Year Program of Study

A student must complete 180 credits and earn a major/program and cumulative GPA of 2.50 (C) or better. All majors must obtain a minimum grade of C (2.00) in all computer science courses that are prerequisites to another computer science course.
These plans of study assume that you have completed no degree requirements **(see list below). Your** actual plan of study may vary from this example due to prior educational experience or individual goals. You should plan to work closely with your academic advisor to complete your personal educational plan and refer to the Catalog for pre-requisite information.

Bachelor of Science in Computer Science with Business Specialization (designed for students with 180 credits remaining to degree)			
	Fall Quarter	**Winter Quarter**	**Spring Quarter**
FR	MATH 134	*MATH 135	*CPSC 250
	*CPSC 151	*CPSC 152	Core I
