INTERDISCIPLINARY LIBERAL STUDIES

PROGRAM DEADLINES:

Fall Quarter (priority): March 1

Fall Quarter (final): August 1

Winter Quarter (January start): November 1

Spring Quarter (March start): February 15

ABOUT THE PROGRAM

The Interdisciplinary Liberal Studies program allows maximum flexibility in course choices, you will work closely with professors and advisors to focus your plan of study, especially on complex, real-world problems of personal interest. You can also take advantage of study abroad, internships, and our undergraduate publishing program. Interdisciplinary students study complex problems - such as the nature of consciousness, race relations, what is family, the value of public art, immigration and many more. Complexity means that the problem has multiple components studied by different disciplines. Interdisciplinary students find common ground between disciplinary insights and integrate them to advance understanding of these problems. Being trained as an interdisciplinary student yields marketable knowledge and skills: project management, effective communication, teamwork, leadership, strategic thinking, creativity and enterprise.
