

Response to MRC Coalition Requests

1. Curriculum

The Matteo Ricci College will conduct a comprehensive review of the curricula of the college's degree programs in response to the concerns and requests put before us by the students. The committee, consisting of College faculty, students, alumni, and a consultant, will be tasked to bring recommendations on how to address the students' concerns and recommendations.

The committee findings and recommendations will be presented to the Dean and to Interim Provost Bob Dullea for consideration. The deadline for the report is December, 2016.

2. Culture

The Dean will work with the Provost's Office to hire a consultant who will conduct an assessment of the culture, climate and manner of discourse and engagement both inside and outside the classroom. The consultant will be asked to provide recommendations on how best to serve and support our students. Additionally, faculty and staff will undergo racial and cultural literacy training.

The consultant will be contracted over the summer and the tasks will be carried out across AY 17.
