Part 1: Please answer questions A, B, and C separately. (1500 words max total)

A. Bearing in mind the mission of the SU MSW program:

The mission of the Seattle University (SU) Master of Social Work (MSW) program is to educate students for social justice-focused and community-based advanced clinical social work practice. The program seeks to advance equity in access to excellent clinical social work practice for historically marginalized populations by preparing competent and effective practitioners who restore, maintain, and enhance human and community well-being with unwavering attention to social

and economic justice. The program is committed to respectful engagement and collaboration with community partners in its scholarship, teaching, and service.

Discuss how your education and/or experience (work, volunteer, personal) prepared you to pursue graduate social work education at this program.

B. The SU MSW program offers a single concentration in advanced clinical social work practice. Council on Social Work Education (CSWE) defines advanced clinical social work:

As a specialty within the practice of social work, clinical social work builds on professional values, ethics, principles, practice methods, and the person-in-environment perspective of the profession. It reflects the profession's mission to promote social and economic justice by empowering clients who experience oppression or vulnerability. Clinical social work requires the professional use of self to restore, maintain, and enhance the biological, psychological, social, and spiritual functioning of individuals, families, and groups.

Why is clinical social work a good fit for you? What relevant skills and qualities do you bring to clinical social work?

C. Discuss your preparation for a rigorous graduate academic program and field practicum. What are your academic strengths? What strategies or skills do you currently have to maintain strong performance in classes and in field practicum (which occur simultaneously)? What do you recognize as areas for development in order to succeed in this program?

Part 2: Social Problem Analysis (1500 words max excluding the reference section)

Identify and analyze a social problem that is significant to the profession of social work. This analysis paper must include appropriate references and use the American Psychological Association (APA) style citation and formatting. Faculty will evaluate the paper for its content and social justice framework, organization, and writing quality.

The following elements must be addressed:

- A. Problem definition and description
- B. Societal issues that contributed to the creation and maintenance of the problem
- C. Possible solutions or interventions to address the problem
- D. Limitations of the proposed interventions or obstacles to proposed solutions

- Graduate and post baccalaureate applicants who received a baccalaureate degree or higher from Seattle University or a recognized college or university in the United States, Canada, Great Britain, Ireland, New Zealand, Australia, Bahamas, Jamaica, Kenya, Singapore, Belize, Nigeria, and Trinidad and Tobago will not be required to submit English proficiency test scores. Students earning a degree in a country other than those listed above may provide official documentation from the degree-granting institution verifying that all instruction was in English. A minimum of three years of enrollment at the university is required. English proficiency may be met with an official TOEFL score of 86 (IBT), or the IELTS exam with a minimum score of 6.5; PTE score of 63; or Duolingo score of 110.

- Applicants must disclose all criminal history as requested on the application form. A certified background check will be required of all admitted candidates prior to enrollment.

- Students should be aware that human services agencies often require an additional criminal history background check on students who apply to their agencies for field placements. A positive report that reveals a criminal history may preclude the student from many potential field placements and will limit the field placements available to the student. The Seattle University MSW program cannot guarantee field placements (a requirement for completion of the MSW degree and social work licensure) for students with a positive criminal background report.
