   A. Space Planning Committee was formed to handle expensive and limited space issues

      2. Difficult to find unplanned or underutilized space
      3. Sometimes turn to lease solutions
   B. Upcoming changes
      1. Develop operations center in 1313 Columbia building to house OIT and public safety, as well as backup power facilities in case of emergency
      2. Move Reprographics to 12th and Madison (storage facility building), with a storefront open to public

      5. Change layout of Rianna offices to have fewer workstations, but larger and more private for better advising

         a. Less than 10% of printed materials were checked out over the past few years
         b. Move toward remote access to free up large areas of space for academic purposes
         c. Not reducing collections, only accessing in a different way
   C. Discussion
      1. Currently there is only limited backup power capability in USVC and Loyola, whereas 1313 Columbia would work well to build out emergency power and water services
      2. Suggestion to add faculty member to space governance committee and include faculty in general on these discussions, especially as the library book stacks discussion develops
3. Disappointed to learn about the repurposing of Casey Commons, which is a great common area that is heavily used

III. Review and Vote on Resolution Re: Academic Approvals Resolution 2014-3

A. As written, very assertive about authority of AcA
   1. Question of how to interface school/college governance and AcA
   2. Perhaps needs a more subtle hierarchy
   3. Need access to budget information to make fully informed decisions

A. Proposal to remove “non-academic” from Item 15 – approved with no abstentions

B. Proposal to add phrase “state the rationale for termination versus suspension” to Item 4 – approved with no abstentions

C. Change grammatical tense from “would” to “will”?
   1. All Registrar forms are in this tense

E. Discussion of procedural document moved to a future meeting

VII. Executive Session
