 1. Normally faculty contracts go out on or about April 1
 2. This year contracts will be issued around April 15, in order to be thorough in the process
 - a. Faculty Services has been working on merit with the deans, HR has been working on the market study – need to bring these two areas together
 - b. Merit side is a 2.5% pool for faculty merit
 - c. Additional .5% for faculty – previously called equity but more appropriately called administrative pool (promotions, sabbaticals, etc.)
 3. Budget situation
 - a. Continued decline in graduate enrollment across the university affects the budget for the coming fiscal year
 - b. Divisions are looking within for areas to cut, instead of comprehensive budget model/reallocation
 4. Faculty salaries and compensation adjustments that will be implemented effective Academic Year 2019-2020
 - a. Salary increments for faculty promotions
 - From Associate Professor to Professor: from \$7K to \$8K (+14%)

 - b. We don't yet know what this means for our new comparative group
 3. In the aggregate, CAS and CSE compensation data is below market
 4. Additional \$300,000 allocated for faculty equity in addition to the 2.5% merit pool – awards to almost 100 faculty
 5. The faculty compensation committee will convene in the next week or so to talk through all of these issues and bring a proposal back to AcA: lessons learned, ideas moving forward, open questions including correct comparative group
 6. Needs to be a multi-year commitment – looking to bring this question to the Board of Trustees as early as May
 - D. Discussion
 1. Concern that there is not enough transparency around actual dollar salaries, and not just percentage comparison to market aggregate/median/mean
 2. Ask for dollar amounts to be shared as part of the discussion, in addition to percentages
- III. Vote on Climate Positive Campus Proposal
 - A. This proposal is \$200,000 and we just spoke about \$300,000 for faculty salary allocation – there are other priorities in the budget for these amounts of money
 - B. Aspirational, desire that strategic planning takes this into account as a serious proposal, not actually a budget proposal

- IV. Support for Undocumented Students (*Clara Cordova, Jorge Lara Alvarado, Alex Romero*)
 - A. Overview
 1. Ongoing issues, SU has been talking about this for a few years and doesn't know how to handle the issues undocumented students face
 2. Not fair for these students to come to a university that wants to help and is not equipped to do so
 3. Scarlet Group represents concerns of undocumented students on campus
 4. Last year visited AcA, and may not have given AcA a clear enough ask
 5. Specific requests

 - b. Dedicated space that brings together knowledge and expertise from across campus so students don't have to go to multiple places disclosing status and asking for help
 - c. Hire more undocumented staff
 - d. Request for solidarity
 - B. Discussion
 1. SU should be accountable to take more concrete steps
 - a. We can look at the Law School as a good example, where community members worked to suspend the relationship with ICE
 - b. Undocumented students should not be asked to explain their status every time they are asking for help

- c. Support services for undocumented students should be listed on syllabi similar to Disability Services
 - d. A disservice to international students – especially in graduate programs
 - 2. Dedicated space
 - a. Creating a dedicated space can have the unintended consequence of making students visible in a way that may be dangerous given the national political issues
 - b. There is a false sense of safety in keeping undocumented students in the dark
 - c. Marginalized groups are always visible, the effects of visibility can be positive
 - d. Structural problem – making students do the labor and go to multiple places seeking solutions
 - e. Disappointing to expect other universities to lead the way, when we are called to lead
 - 3. Next steps
 - a. AcA passed a motion last year calling for the administration to prioritize this and address the concrete asks with positive changes
 - b. Student Development and Diversity and Inclusion are working on a dedicated space in the residence halls, as well as optional trainings for faculty and staff
 - c. Would be useful to do an audit of where information is held across campus and where students are sent
 - d. Clara will draft a motion for our next meeting

 - b. Goal to attract highly capable students who want to fast track
 - c. Academic Assembly referred the questions surrounding the proposals back to EC for further consideration, and received a response

 - 3. Memorializes a number of behaviors that are already happening, but also does make a number of new items or changes
 - 4. Drew on AAUP white papers with the lack of a university constitution
- B. Discussion
 - 1. AcA needs more time to discuss this proposal
 - a. Maybe a half day retreat
 - b. Retreat could also be combined with orientation for new members in fall
 - 2. Perhaps a parallel review process with the Provost
 - 3. Need to figure out how to handle the transition period between current and new bylaws
 - 4. Four years is a long term; does the stability of extending the term affect the recruitment process?
 - 5. Could amend the current bylaws piece by piece as the larger document is discussed
 - 6. Faculty at large need opportunity to give input – AcA is representative of the faculty, so can work on the draft and then bring a final draft to all faculty
