## Bachelor of Science in Biochemistry

### Suggested 2 Year Transfer Program of Study 2019-2020

**Degree Requirements**

- Credits: 180
- Credits in major: 109
- GPA cumulative minimum: 2.0
- GPA major minimum: 2.0

**Curriculum Notes**

- CHEM Electives = 3520/21 – Physical Chemistry: Photochem; 4000 – Instrumental Analysis; 4700/4701 – Advanced Inorganic Chemistry/Lab
- BIOL Electives = 1630/1631 – Gen Biol III; 2700 – Genetics; 3100 – Microbiology; 4700 – Molecular Genetics; 4750/4751 – Cell Biology
- The example below assumes that you have completed the following prerequisites:
  1. Enter with junior standing (90 credits)
  2. Have earned a transferable associate’s degree
  3. A full year of General Chemistry, Organic Chemistry, Calculus and one quarter of General Biology equivalent to BIOL 1610/1611.
- Students with AST may have additional core requirements depending on community college coursework.
- In order to graduate in two years, at least two of the following year-long sequences need to be complete prior to transfer: Organic Chemistry, Calculus, Physics. (Prior completion of Organic and Calculus is shown)

Your personal program of study may vary from this due to prior educational experience or individual goals. P Indicates prerequisite required for course  C Indicates co-requisite required for course

For complete information on courses, pre-requisites, etc., use this information in conjunction with the online Catalog (http://catalog.seattleu.edu/) for the current year.

**Core Module I Requirements**

- UCOR 2100 Theological Explorations
- UCOR 2500 Philosophy of the Human Person
- UCOR 2900-2940 Ethical Reasoning

**Core Module II Requirements**

- UCOR 3600 Social Sciences Global Challenge

**Core Module III Requirements**

- UCOR 2100 Theological Explorations
- UCOR 2500 Philosophy of the Human Person
- UCOR 2900-2940 Ethical Reasoning

Science and Engineering Advising Center
