

The example below assumes that you enter Seattle University with junior standing (90 credits), have earned a transferable associate's degree, and have successfully completed the following:

- ECEGR/CPSC elective - 4 credits. A list of allowable electives can be found in the Electrical and Computer Engineering Student Handbook.
- 96 credits shown.
- A full year each of calculus and calc. based physics, one quarter each multivariable calculus, linear algebra, differential equations, and circuits, and two quarters computer programming
- Students with an Associate of Science – Transfer (AS-T) degree may have additional core requirements depending on community college coursework.

Visit the Transfer Equivalency Guide on the Transfer Tools site for more information on how your credits may transfer to SU: <https://www.seattleu.edu/registrar/transfer-tools/>. Some courses not listed on the Transfer Equivalency Guide may still transfer to SU. For courses not found on this tool, compare course descriptions with SU's course catalog to determine equivalent courses at your college/university: <http://catalog.seattleu.edu/>

*This is a sample and not the only way to complete this plan. Number of credits are in parentheses. \*Some classes have prerequisites.*
