

The example below assumes that when you enter Seattle University with junior standing (90 credits), you have earned a transferable associate degree and have completed the following:

- Full year of Calculus, Multivariable Calculus, Linear Algebra, Differential Equations, & Advanced Math
- Students with associate degree may have additional core requirements depending on community college coursework.

Visit the **Transfer Equivalency Guide** on the Transfer Tools site for more information on how your credits may transfer to SU: <https://www.seattleu.edu/registrar/transfer-tools/>. Some courses not listed on the Transfer Equivalency Guide may still transfer to SU. For courses not found on this tool, compare course descriptions with SU's course catalog to determine equivalent courses at your college/university: <http://catalog.seattleu.edu/>

*This is a sample and not the only way to complete this plan. Number of credits are in parentheses. Some classes have prerequisites. **
