

Seattle University
2020-21 Graduate Business Certificate in Finance

The certificate in finance will allow the student to gain the specialized knowledge necessary to be successful in the profession. You will receive solid grounding in financial principles, accounting analysis, and economic analysis. You will be exposed to complex financial issues and will increase your analytical competence. Upon completion of the certificate, you can contemplate careers in financial analysis, capital budgeting, security analysis, corporate financial management, and small business finance.
