CCTS and the Post-School Survey

CCTS

CENTER FOR CHANGE IN
TRANSITION SERVICES

- Empowering educators to improve transition services for youth with disabilities through **partnerships, research, and training**
- OSPI Special Education State Needs Project
- Located at Seattle University

CCTS Provides:

- Post-school outcome data for all former high school students in Washington who had an IEP
 - Data collection management
 - Reports
- Secondary transition training
- Technical assistance
- Resources and materials

Federal Collection and Reporting

Purpose

To determine how well states are meeting their responsibilities under the Individuals with Disabilities Education Act (IDEA)

Requirement

All states collect data on 17 IDEA performance indicators

Findings are reported to the Office of Special Education Programs (OSEP)

How are PS Data Collected in ESD 112?

Four IDEA performance indicators relate to secondary transition.
These indicators also correlate with one another.

(Kohler, Gothberg, & Hill, "NSTTAC Evaluation Toolkit", 2009)

Data Collection Overview

Post-School Survey Logistics

Survey is open June 1-November 1 each year

Surveys are conducted over the phone by school/school district representatives

Survey questions are answered by former special education students (“leavers”), one year after exiting high school

Survey data are reviewed, analyzed, and reported by CCTS

Leaver Criteria for 2022 Survey

- Former students who exited school in the 2020-21 year
- Age 16-21 with active IEPs at the time of exit
 - Aged out
 - Dropped out
 - Graduated with a diploma
 - Expected to return but did not

What data are collected?

- Demographics (exit status, gender, disability, race/ethnicity, language proficiency)
- Work and school experiences
- Type of job or school
- Number of hours working or in school
- Contact with agencies

Post-School Outcome Terms and Definitions

Former students eligible for the survey

Leavers

Former students ages 16-21 with an IEP who left school by graduating with a diploma, aging out, dropping out, or who were expected to return and did not

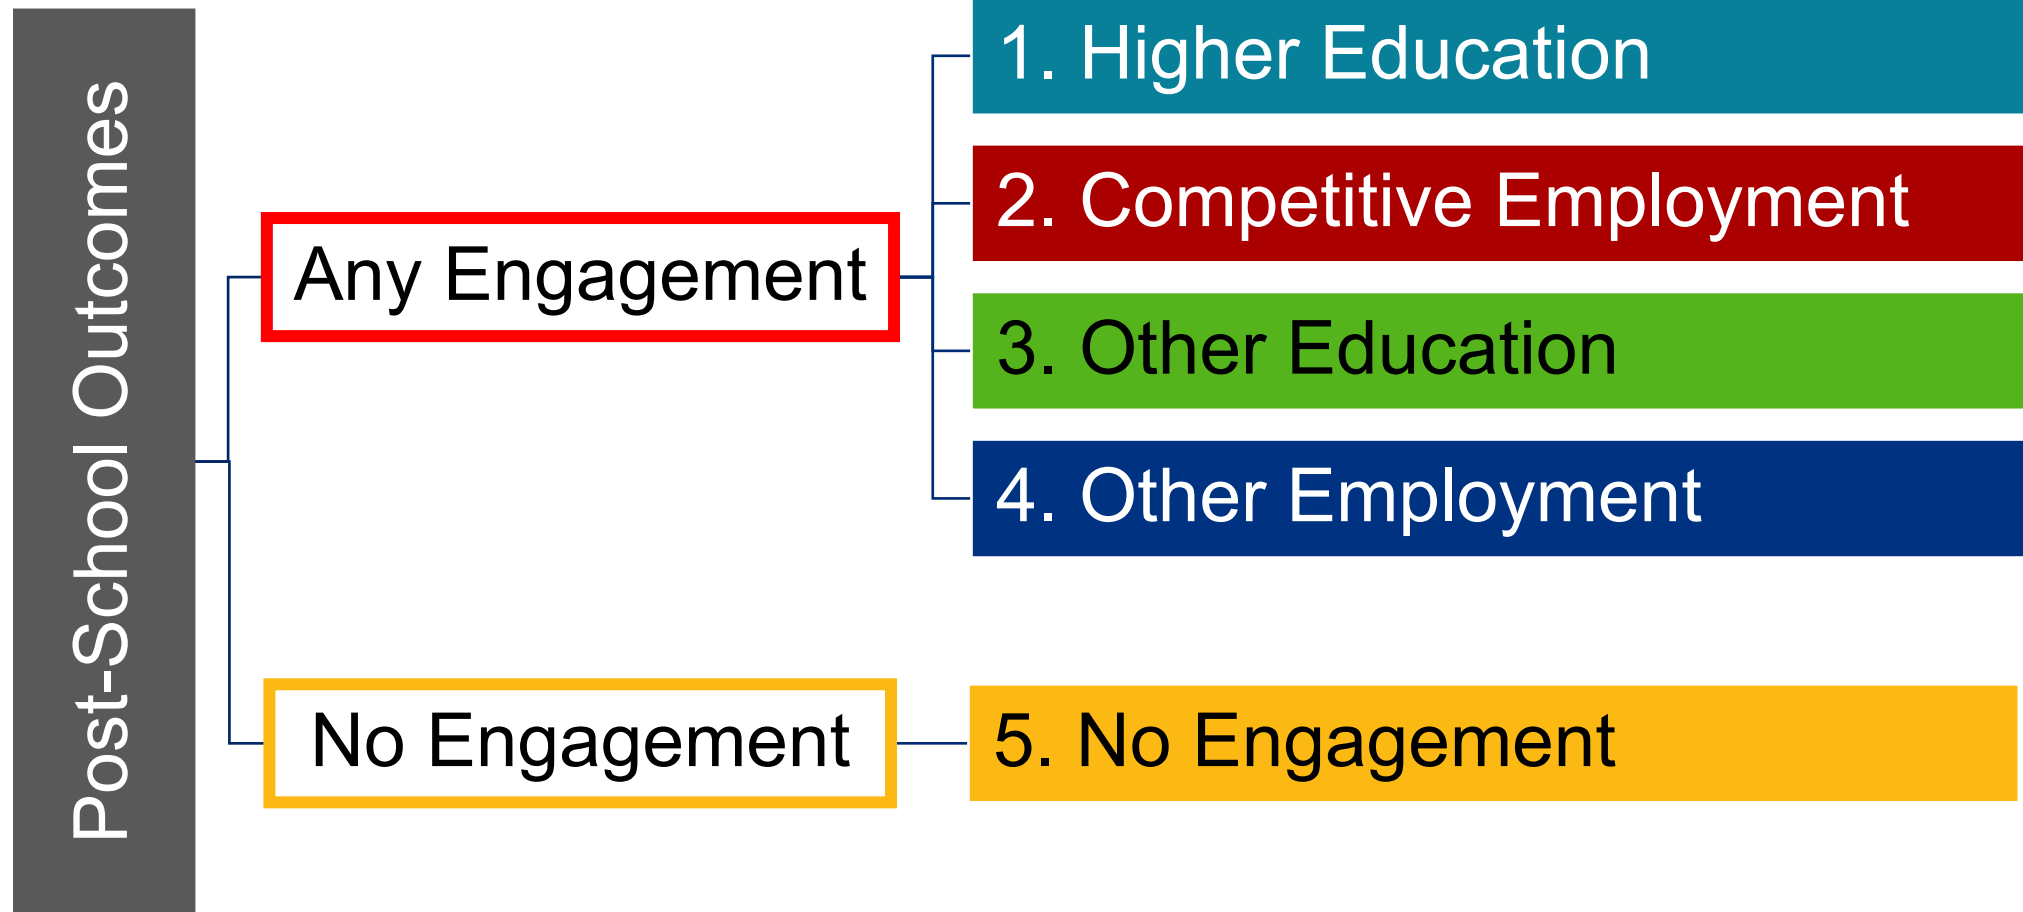

- **Responders/respondents (Resp'ts)**

Former student or designated family member who answered the survey interview questions

- **Non-responders/non-respondents**

Former student who was unable to be contacted after repeated attempts or declined to participate in the survey

Post-School Outcome Categories

1. Higher Education

- Enrolled full- or part-time
- Community college (two-year) program
- College/university (four- or more year) program
- At least one complete term

(National Technical Assistance Center on Transition: The Collaborative, 2018)

2. Competitive Employment

- Worked for pay at or above minimum wage
- Setting with others who are nondisabled
- 20 hours or more a week
- At least 90 days at any time in the year since leaving high school
- Includes military employment

(National Technical Assistance Center on Transition: The Collaborative, 2018)

3. Other Education

- Enrolled full- or part-time
- Education or training program that is less than a two-year program (e.g., adult education, vocational technical school)
- At least one complete term

(National Technical Assistance Center on Transition: The Collaborative, 2018)

4. Other Employment

- Worked for pay or has been self-employed
- At least 90 days at any time since leaving high school
- Includes working in a family business. (e.g., farm, store, fishing, ranching, catering services, etc.)

(National Technical Assistance Center on Transition: The Collaborative, 2018)

5. No Engagement

- Former student does not fall into one of the previous employment or education categories.
- The “not engaged” former student may have attempted some education or employment experience, but for less time than the minimum period required for reporting.

Post-School Outcome Tables and Graphs

Survey data from former students who permanently exited high school in the 2020-21 school year

Post-School Outcomes, 2020-21

ESD and Washington state data tables

ESD Name	Total number of 2020-21 leavers	Total number of respondents (resp'ts)	Survey response rate
ESD 112	814	661	81.20%
Washington state	7,938	6,261	78.87%

ESD Name	Resp'ts	Higher Education	Competitive Employment	Other Education	Other Employment	No Engagement
ESD 112	661	16.19%	31.62%	4.39%	22.39%	25.42%
Washington state	6,261	16.87%	30.75%	3.91%	22.74%	25.73%

Sharing Post-School Outcome Data

Data Security and Confidentiality

- District-level data belongs to the school district and cannot be shared without express permissions from the district.
- To protect the identity of populations with respondent sizes less than 10, outcome percentages are changed to N/A.
