## **BSW Field**

### **3-Quarter Field Practicum Calendar for the 2022-2023 Academic Year**

Students in the BSW Program are required to complete **450** hours of field for the academic year. A total of **150** hours of field is required for each Quarter of the academic year. All field hours must involve social work practice at the field agency site and occur under the supervision of a Practicum Instructor (PI).

**Students are typically in field on Mondays and Wednesdays and intern a total of 15 hours per week.**

Students are permitted to accrue field hours during the course of their field practicum. Accruing extra hours in field is not a requirement, but an option to plan for absences that may occur due to illness, religious observances, or inclement weather. **Students in the BSW program may accrue a total of no more than 15 hours for the entire academic year.**

Accrued hours are recorded on the Field Practicum Log of Hours in Tevera®, which must be approved by the PI. Students may request use of accrued hours any time during the Fall, Winter, or Spring quarters. The PI should be notified before having to be absent from field. If a student is absent and does not have accrued hours, the student is encouraged to confer with the Practicum Instructor to identify a plan for making up the hours at a future date.
