International Short Term Program Timeline—Credit

Purpose:

It is the goal of the Education Abroad Office (EAO) to assist faculty in developing high-quality international programs that offer a connection to our mission and values of academic excellence, diversity and empowerment of leaders for a just and humane world. Our international programs should reflect elements that enhance the curriculum in ways that cannot be accomplished by offering it on campus alone. Each college has a specific process for the approval of study abroad courses and their curriculum. Once approved by the college, faculty work with the Education Abroad Office to complete a series of administrative procedures to implement the program.

Instructions:

Please refer to the following departure-specific timelines for deadlines and follow the hyperlinks for associated documents. Note that additional documents (i.e. Signed Agreements, [Travel Petitions](#), Volunteer forms, etc.) may be required once the International Program Risk Approval Form is reviewed and approved by the Education Abroad Office.
