CSI Construction Updates for the Month of September:

New Building construction site:
-In the month of October, Skanska installed underground plumbing and electrical and prepared for pours the first floor concrete floor (slab on grade).
-In November, Skanska will pour the first floor concrete slab, install footing drains, and form and pour the second level floor.
-In December, Skanska will be installing the concrete floor at level 3, and begin the interior build out at first floor.

Lower Mall and Marion Street Activities:
-No planned activities outside the construction fence

Milestone Schedule
Month of November:
-Pour first level concrete floor
-form and install 2nd level concrete floor and columns

Month of December:
-form and install 3rd level concrete floor and columns

Fun Fact:
-There are more than 25,000 bricks on the exterior of the building

Thank you for your patience! The overall construction schedule is targeting completion by spring 2021.
