

**Great Backyard Bird  
Count at Seattle  
University  
February 16, 2018**

Participants met at the Union Green, then ventured out all over campus to count birds on this cold February day.

Representatives from Seattle Audubon joined us this year and spotted two nests being built by male Anna's Hummingbirds!

One mature Bald Eagle was seen circling over Championship Field.

**The Count**

Bald Eagle 1

Anna's Hummingbird 5

Northern Flicker 1
