Kubota Gardens on the Seattle University campus

11th and Marion St, southeast corner and entrance to the University Services building
Here is a fine example of the subtle brilliance of Kubota’s style. A rich visual feast, but still very restful to the eye. One of the few remaining Bloodgood Maples on campus in the circular garden at the west entrance. The Marion St side of this landscape was renovated by Allen Kubota in 2004 and a large Weeping Japanese maple was added.

This was one of the original trees planted by Kubota on campus. Was moved back into the bed, out of harm’s

Pinus mugo Mugo Pine
Xavier Courtyard

This quiet little courtyard has some horticultural gems hidden from view. The Japanese Maple to the west of courtyard was one of Tom Kubota’s favorite trees.
