

Ordering a New Dock Decision Tree

I have an existing dock. Do I need to order a new one?

If you have a WD-19 from Dell, you may continue to use it.

If your dock is not the WD-19 and is a D-6000 or older you will need to order a new dock.

I don't have a dock, or my dock is too old. What should I order?

I have two monitors and many things to plug in.

I have one monitor and may or may not need to plug a lot of things in.

I don't use any monitors. I just need a dock for extra ports.

You will need the ThinkPad USB-C Dock Gen 2. It is a powered dock with enough ports and can support two monitors.

You could use the USB-C Mini Dock. It is powered and has an HDMI port for one monitor and other ports for business needs.

You could use the USB-C Mini Dock or purchase your own hub from Amazon or other vendors.
