

Drill through instructions

Drill through is now available for all student headcount and course-related figures. The drill through will drill down to the student or course level to provide a row-level detail for the number displayed in Power BI. The intent of the drill through is to assist with the verification the data presented.

Accessing drill through

- To see if the drill through is available, position the mouse on the data point.
 - The Power BI tooltip will indicate if the drill through is available.

- Right click on the data point

- Select the drill through page
 - The page will open with the detailed data
 - To return to the previous page use the back arrow in the upper right hand corner.
