

# HUMANITIES FOR TEACHING

The Bachelor of Arts with a major in Humanities for Teaching shares with the other Humanities degrees the emphases on forming humane persons and promoting justice. It prepares students for a Masters in Teaching program. In addition, this major applies Humanistic and Jesuit thought to the specific topic of education. Taking learning as a uniquely human activity, this degree questions the links between conceptions of the human and prescriptions for pedagogy. It debates the highest purposes of education and considers, in particular, Jesuit responses to that inquiry. It balances these theoretical pursuits with practical, guided experience in the classroom.
