

FACULTY CATEGORY OVERVIEW

School/College: School of Theology and Ministry

Use this to create faculty categories, define standard teaching loads for each category, and describe expectations for other aspects of faculty work. Some of this information may be available in annual performance review forms or other materials which detail expectations. Releases should not be part of the standard workload; releases are considered exceptions to the standard. That said, do include notes in the table or below it describing policies for when a faculty member is eligible for releases.
