SAMPLE FINANCIAL AID AWARD

Your financial aid award explains the scholarships, grants, work study opportunities and student loan funding available to you. In the first column you'll see the description of the award. The second column shows the status and the third shows the annual amount awarded. The subsequent columns will show how your aid is distributed across Fall, Winter and Spring Quarters.

TYPES OF AID

SCHOLARSHIPS & GRANTS

Scholarships and grants are awards that do not require repayment. Scholarships are generally awarded on academic merit, whereas state, federal and SU grants are typically based on demonstrated financial need from the Free Application for Federal Student Aid (FAFSA).

WORK

Work aid is awarded by state or federal work-study programs, which offer subsidized part-time employment both on- and off-campus for students who qualify. The work section of your award shows the maximum amount a student can earn in a given year. These funds arrive in the form of a paycheck and are not to be factored into the out-of-pocket costs worksheet.

LOANS

Loans may be included in your financial aid award. Some loans are interest-free while you attend college. Although loans must be repaid, interest rates are low and the terms are generally far more favorable than loans available commercially.

You have the following Awards

Your award package assumes you will be enrolled full-time. If you enroll less than full-time, the financial aid you actually receive may be less than what is stated here. Please contact your Financial Aid Counselor if you have questions about your enrollment status.

The percentages above each aid category show the percentage that category comprises of your total award package. For instance, 71% of this sample student's total awarded aid is made up of scholarships and grants.

The status column indicates the awards you have accepted. Grants and scholarships are automatically accepted and loans are listed as "Estimated" until you take steps to accept them.
