

Westcrest Park Restoration Day

Join University Ministry and the Institute for Environmental Justice and Sustainability for an Earth Day celebration as we care for the West Duwamish Greenbelt!

Learn about the early spring plants in the forest ecosystem in Westcrest Park! Care for the restoration area by applying mulch around native plants and removing weeds.

Vans from SU to the park, snacks, and an eco-examen at the end of the event are provided. This opportunity is open to students, staff, and faculty.

**Register on
ConnectSU**

**Saturday,
April 11th
9am-2pm**

Meet at
Pigott
Visitor Lot

Hosted by University Ministry and the Institute for Environmental Justice and Sustainability
