

SEATTLEU

Making Content Accessible

What is Accessibility?

- Ensuring ***all*** students – including and especially students with disabilities – can access and navigate your course content
 - Including screen readers, braille devices, and other assistive technologies
 - Visual enhancements
 - Keyboard-only or voice-controlled navigation

Types of Disabilities That May Impact Online Learning

- Visual
 - Blindness, low vision, color-blindness, contrast sensitivity
- Auditory
 - Deafness, hard-of-hearing
- Motor
 - Inability to use a mouse, slow response time, limited fine motor control
- Cognitive
 - Learning disabilities, distractibility, inability to remember or focus on large amounts of information
- Seizure or Vestibular Disorders
 - Seizures, nausea, dizziness from strobing, flickering, flashing or animated/moving objects of visual effects

Why is Accessibility Important?

- We cannot and should not exclude users with disabilities
 - Part of our mission, commitment to diversity and inclusion
 - Not good for business, not serving our students as well
- Accessibility benefits ***all*** users, not just people with disabilities
- Legally required in certain circumstances

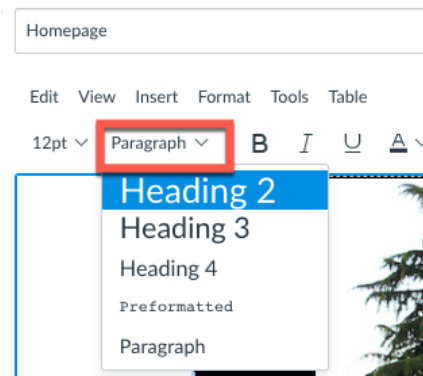

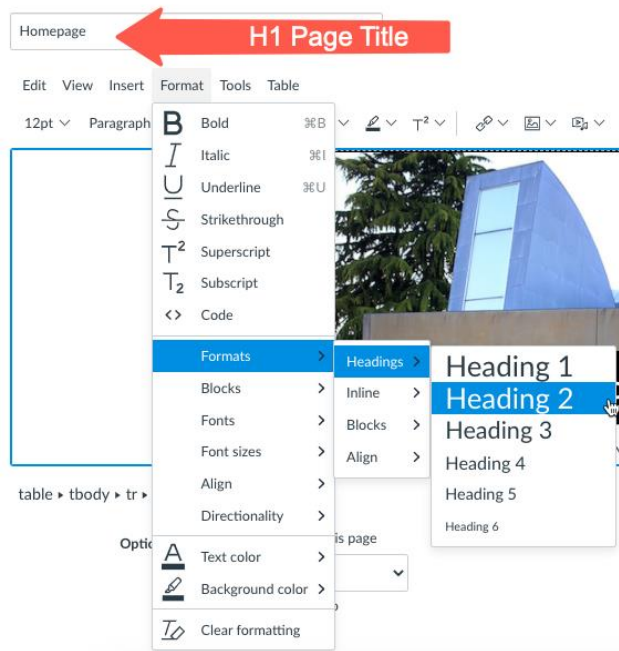

SEATTLEU

Some General Accessibility Principles
& How to Incorporate Them in Canvas

Proper Use of Headings

- Organize your content into a structure or outline using headings that convey a meaningful hierarchy
 - Text should be divided into parts labeled by headings
 - All text that *looks* like a heading should be marked up as a heading
 - Only one H1 heading per page
 - Don't skip levels (don't use an H3 if you haven't used an H2)

Marking Up Headings in Canvas

Lists

- Use bulleted (unordered) list or numbered (ordered) list to mark up list items

Alt Descriptions for Images

- All images/graphics must have a short 'alt' description
 - Conveys the meaning/function of images to users who cannot see it (or see it well)
 - Read aloud by screen readers
- If images are not conveying important content, they can be marked as purely decorative

Accessible Alternatives for Text-Heavy Images

- Try to avoid images with lots of text in them
- If you decide to use a text-heavy image, provide an accessible alternative
 - If it's short, put the text in the 'alt' description (or add a lengthier caption)
 - Put the text straight on the page instead of within an image
 - Post an accessible file/PDF version

Adding Alt Text in Canvas

- When adding an image, either add Alt Text or mark box for 'Decorative Image'

Aspect ratio will be preserved

Links

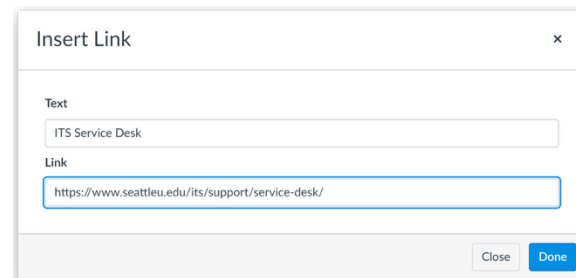

- Link text should be a concise description of where users will go when they click link and make sense out of context
 - Don't use "click here" or "read more" as link text
- Make sure they're working correctly
 - Fix broken links!
- Links should be the only thing on the page that are underlined
- As link text is read aloud by screen readers, don't use a URL as link text unless it's human-readable

Inserting Links in Canvas

- Highlight text, then select Link icon or Insert > Link

- In pop up, paste in URL

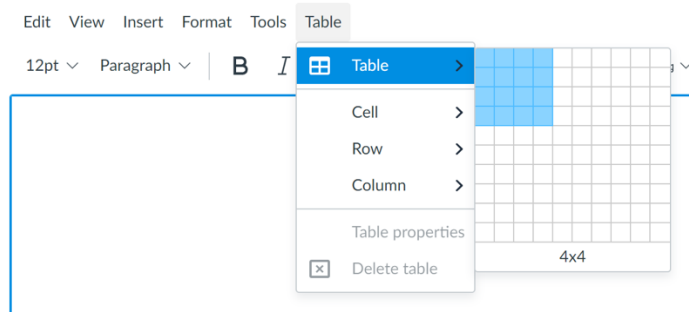

Tables

- Tables should present tabular data
 - Avoid using tables to control page layout
- Add column and row headings to help users derive meaning from table data
- Add table caption to describe/summarize table data

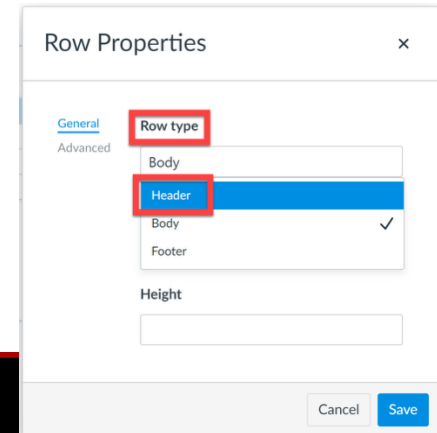

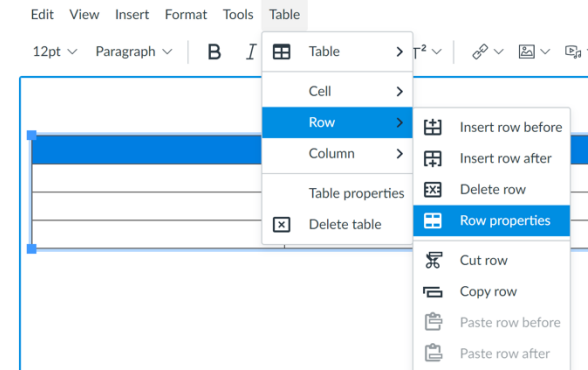

Inserting Tables in Canvas

- Select Table > Table in menu, select number of rows/columns you need

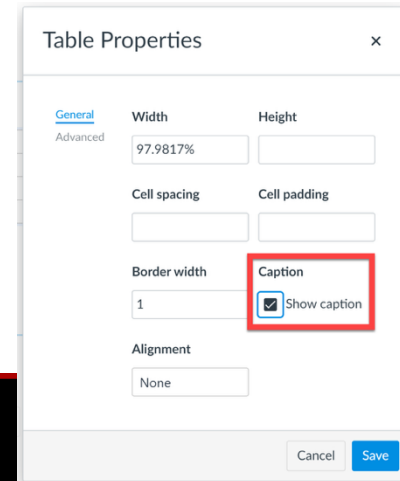

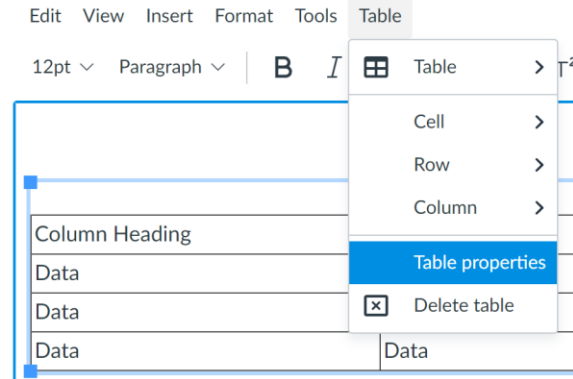

Adding Headings to Table

- To mark up headers, highlight cells then select Table > then cell, row or column properties
- Under "Type" select "Header"

Adding Caption to Table

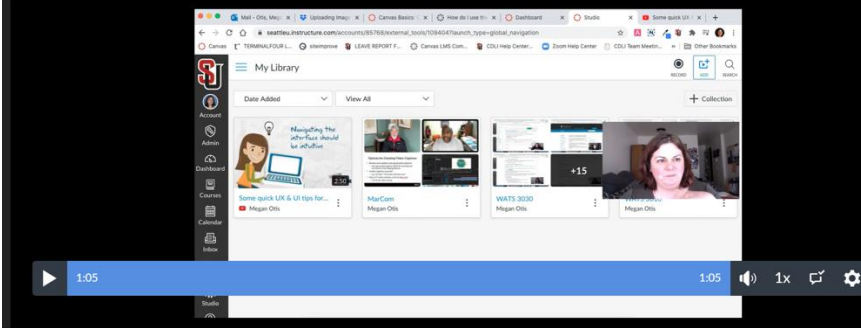

- Click to highlight table, then click Table > Table properties
- Check box to Show caption

Captions/Transcript for Multimedia Content

- Provide captions for video content
 - Canvas Studio & Zoom Cloud Recordings will generate and publish captions AND a transcript for you automatically
 - Autogenerated captions/transcripts **must be reviewed and corrected** to meet legal guidelines

Review and Edit Autogenerated Captions in Canvas Studio

The screenshot shows the Canvas Studio interface. The top part is a video player showing a video of a woman speaking. Below the video player is a navigation bar with tabs: Details, Comments, Insights, and Captions. The Captions tab is selected. In the Captions tab, there is a list of captions with time stamps. A red box highlights the 'Publish' button in the top right corner. Another red box highlights a text area containing the instruction: 'To edit captions, click into time stamp fields and correct. When finished, hit Publish.'

To edit captions, click into time stamp fields and correct. When finished, hit Publish.

Embedded Content

- Use thoughtfully as not all embedded content from other sources is accessible
 - Unsure? Ask IDS
- Provide an accessible alternative

Color and Contrast

- Don't rely on color alone to convey meaning, direct navigation, or differentiate between items
- Contrast ratio between the text color and the background color
 - WCAG AA: 4.5:1 for normal text, 3:1 for large text
- Contrast ratio for graphics is 3:1

Custom Color

A screenshot of a canvas editor interface. At the top is a menu bar with 'Edit', 'View', 'Insert', 'Format', 'Tools', and 'Table'. Below the menu bar, there are settings for '28.8px' and 'Heading 2'. A toolbar contains bold text 'B' and italic text 'T'. Below the toolbar, there are two dropdown menus: one with an 'A' icon and another with a pencil icon. A red arrow points to the 'A' dropdown with the label 'Text Color'. A purple arrow points to the pencil dropdown with the label 'Background Color'. Below these, there is a 5x5 grid of color swatches. A yellow arrow points to a palette icon at the bottom right of the grid with the label 'Custom Color'. In the background, there is a table with a header row containing 'Column Heading' and 'Color', and a data row containing 'Data'.

Inaccessible

up—misunderstandings here and there. Indians, and a few white people, came in to talk or visit. Many of them have lived here for quite a while.

Mission Beach is nothing but houses now, and a lot of white people live there, but it is tribal land. The Tribes lease all of that land, lot by lot. Years ago, fifty or more years ago, that is where the Tribe's money came from, mainly, the leasing of those lots. The land can't be sold, since it is tribal land, but the houses are owned by the people who built them. If, some day, they want to leave, they would have to demolish the house or remove it. They are supposed to leave the land the way they found it.

Last year one of the young people on our reservation, Leslie Parks, asked me if there had always been white people living out here on our reservation. I said no. When I was little—that was a long time ago—the only white people were those who worked at the agency. All of the rest was the entire Indian reservation. The eastern boundary line is on the freeway or I-5, right on the outskirts of Marysville, and then north it is the Fire Trail Road. He just wondered. But it intrigued me that some of the young Indians are wondering why we have white people living here. Now there is hardly any Indian land where only Indians live.

Step 1:

Open your pdf file in
Adobe Acrobat Pro.

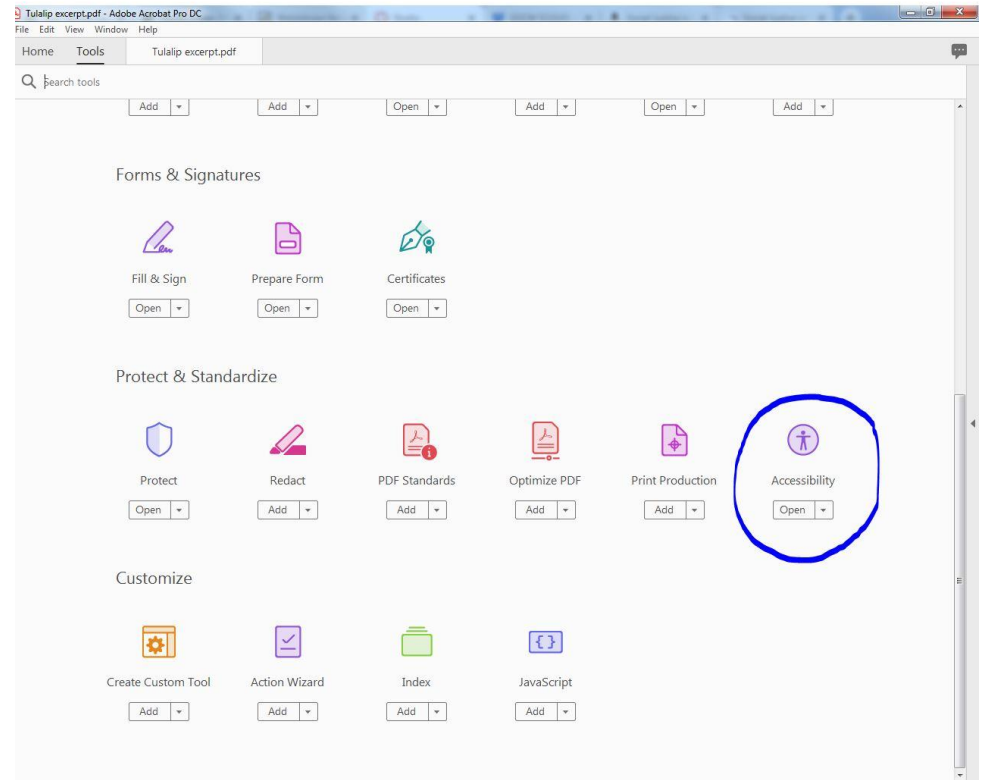

Click on Tools

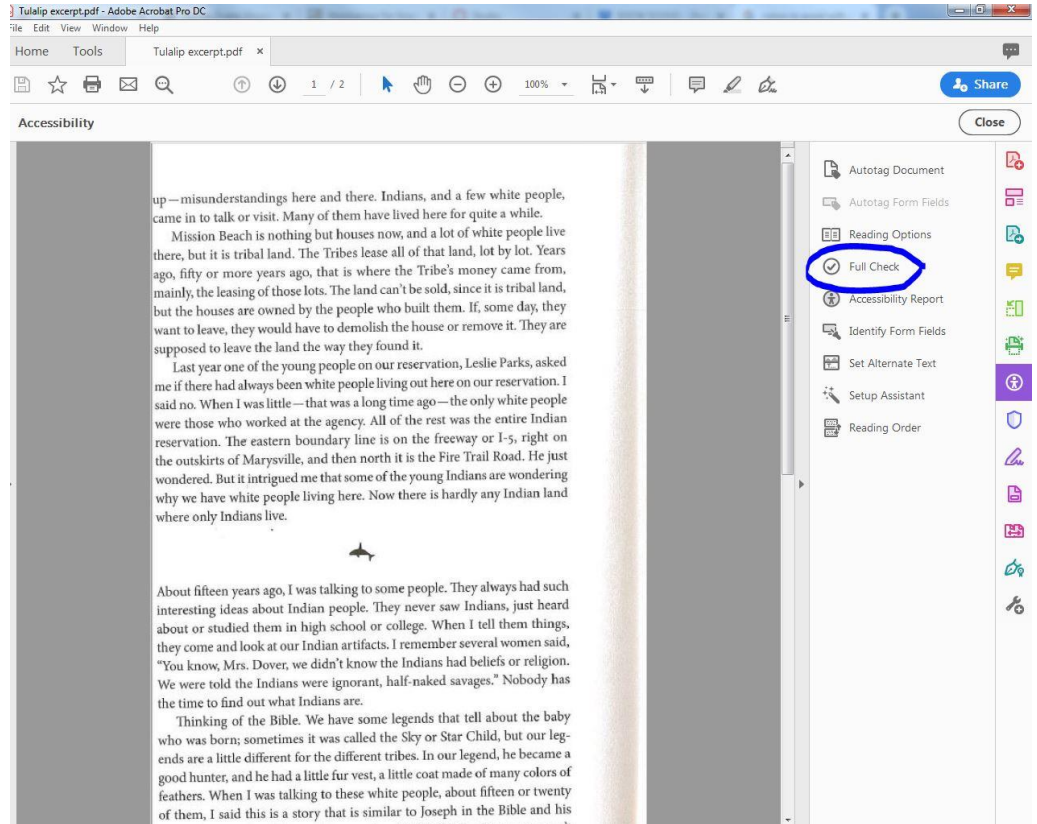

Step 2:

Scroll down and click
on Accessibility

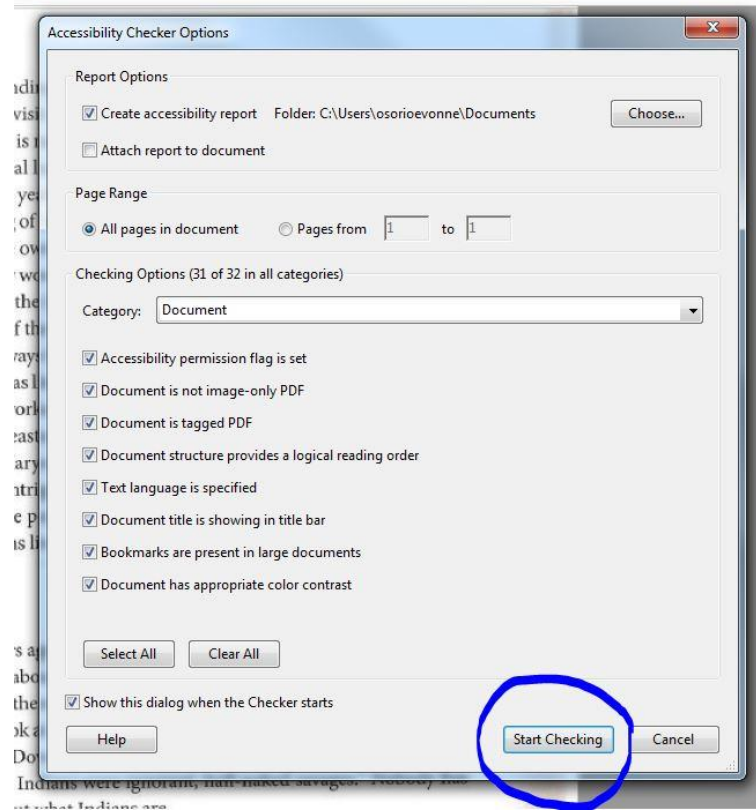

Step 3:

Select Full Check

Step 4:

Start Checking.

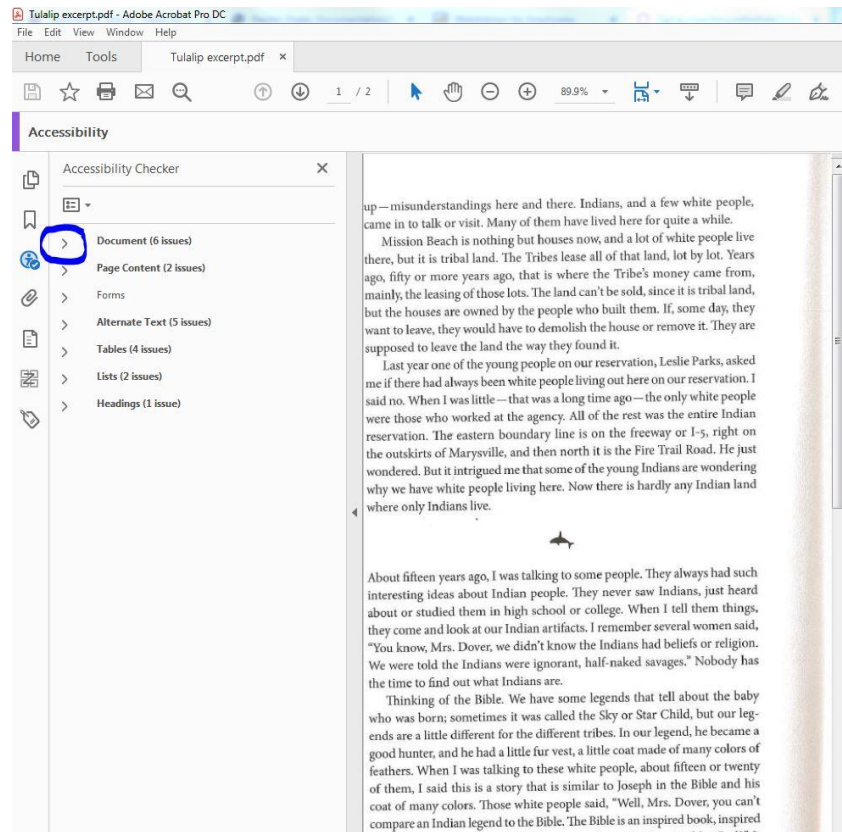

Step 5:

Open the 'tree' by clicking the greater than symbol:

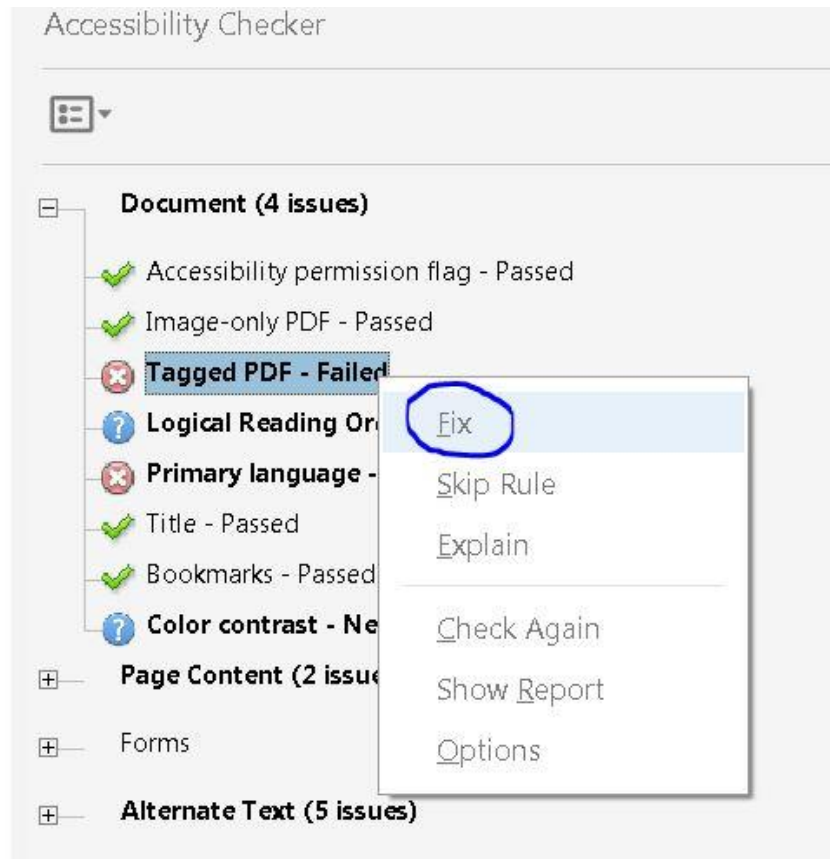

(may also be seen as a plus symbol: +)

Step 6:

Right click on the issues marked as 'Failed' and choose Fix.

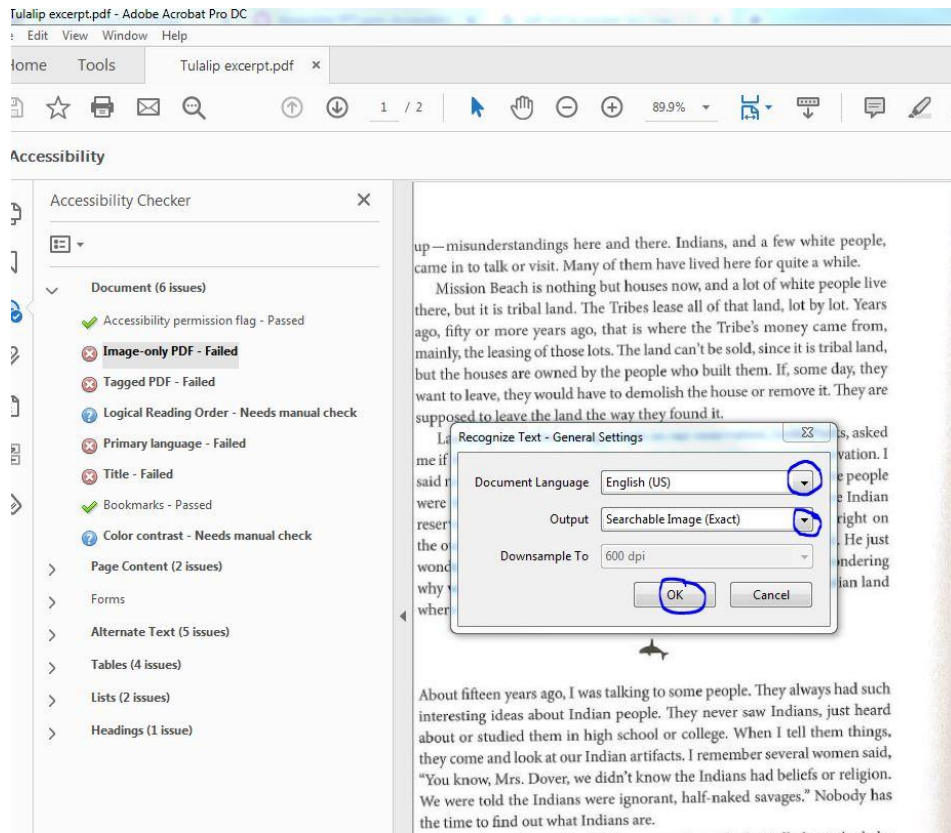

Step 7:

For issue marked as

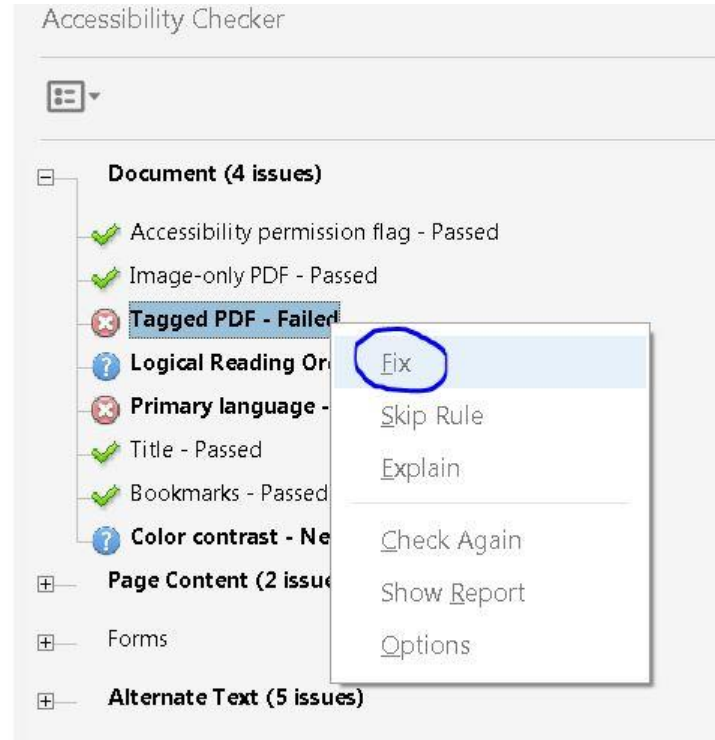

Image only PDF – Failed:

1. Right click
2. Choose fix
3. On Document Language, choose English
4. On Output, choose Searchable Image (Exact)
5. Ok

Step 8:

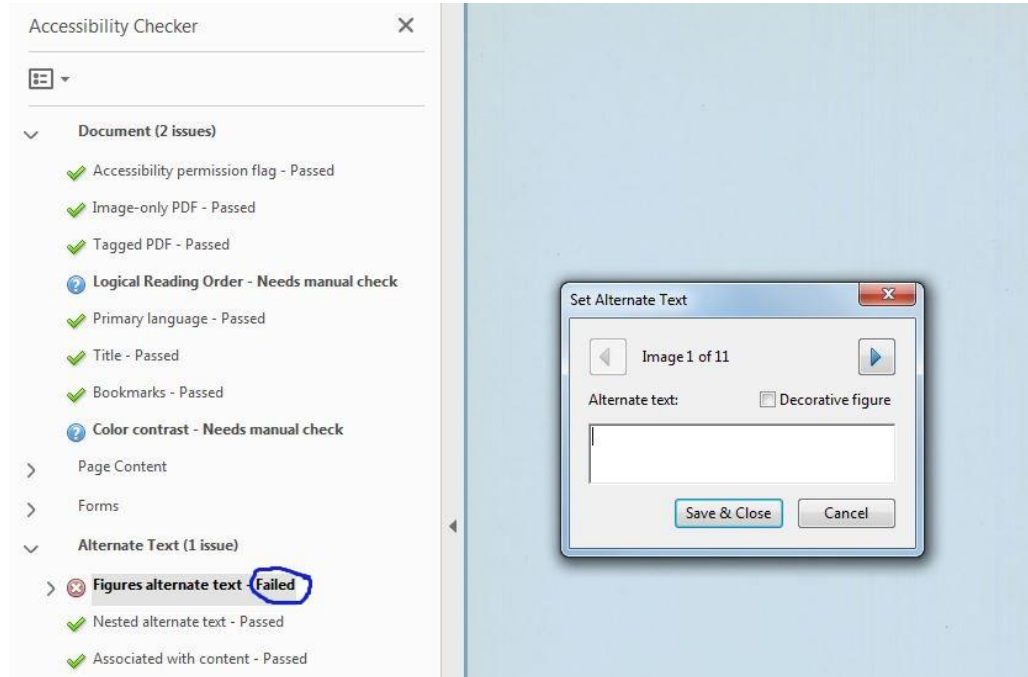

Right click, fix any remainder issues marked as Failed.

Step 9:

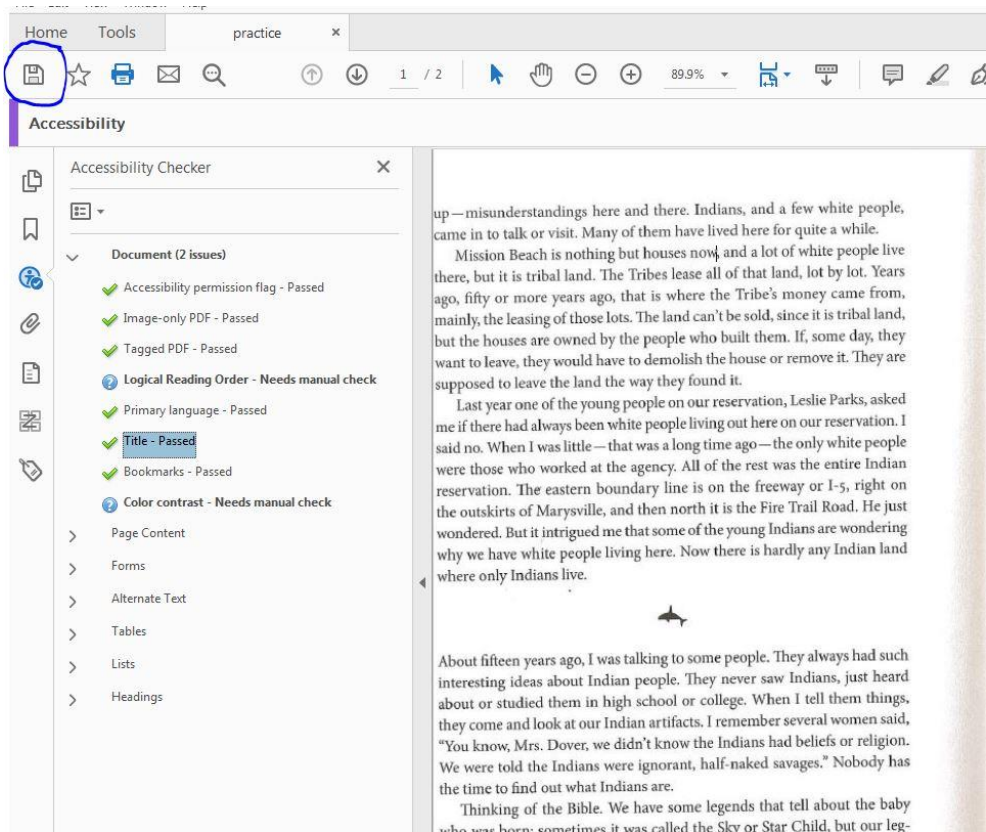

For Alternative Text issues,

1. open the tree
2. Right click on items marked as Failed
3. Include a brief description for each image
4. Save and Close

Step 10:

Remember to Save!

The screenshot shows a web browser window with a document titled "practice". The top toolbar includes a "Save" icon (floppy disk) which is circled in blue. Below the toolbar, the "Accessibility" panel is open, displaying the "Accessibility Checker" window. The checker shows a list of issues for the document, with "Title - Passed" highlighted. The document content is visible on the right side of the screen.

Document (2 issues)

- ✓ Accessibility permission flag - Passed
- ✓ Image-only PDF - Passed
- ✓ Tagged PDF - Passed
- ? Logical Reading Order - Needs manual check
- ✓ Primary language - Passed
- ✓ Title - Passed
- ✓ Bookmarks - Passed
- ? Color contrast - Needs manual check

But it intrigued me that some of the young Indians are wondering why we have white people living here. Now there is hardly any Indian land where only Indians live.

About fifteen years ago, I was talking to some people. They always had such interesting ideas about Indian people. They never saw Indians, just heard about or studied them in high school or college. When I tell them things, they come and look at our Indian artifacts. I remember several women said, "You know, Mrs. Dover, we didn't know the Indians had beliefs or religion. We were told the Indians were ignorant, half-naked savages." Nobody has the time to find out what Indians are.

Thinking of the Bible. We have some legends that tell about the baby who was born: sometimes it was called the Sky or Star Child, but our leg-
