

DEAR COMMUTER STUDENT,

Notes to commuter students from commuter students

“Commuting may be tiring, but there’s always a good thing that you can get out of it! Make sure you find out what time and what bus to use a day before your commute so you know what time to get ready and be excited for your day!”

“Don’t be afraid to reach out and confide in your Link community. I made many friends just by branching out to the people that used the same space as me. You’d be surprised to find out how many amazing people there are that study right next to you!”

“Keep up to date on social media pages. The Collegia Program has many reminders for events and social gatherings that can bring you closer to your community.”

“Commuting has made me more adventurous in a way. I learned how to navigate my way through the city and find new places that I can hang out at with my friends or even study.”

“Spend time in the Link and talk to the other students in your class about where they are coming from. You’ll be surprised how many students actually commute and then you can find ways to meet up during your travels.”
