## Bachelor of Arts in Interdisciplinary Arts with a Specialization in Music

The interdisciplinary arts major builds on the cross-disciplinary nature of the arts by allowing students to choose an area of emphasis within the arts while they also integrate courses from other art forms. A student interested in musical performance might choose to bridge theatre and music, while another might combine music and visual art courses to round out an emphasis in production theatre. Individual programs are designed in consultation with a fine arts faculty adviser.

The Department of Performing Arts and Arts Leadership offers an exciting and unique opportunity for interdisciplinary study in the arts. While the emphasis track is specific to music, this program requires students to take courses outside the chosen field; students are encouraged to explore the endless possibilities that exist between music and other art forms.

**Degrees offered:** BA
