Direct Transfer Associate's Degree (DTA)

Review the two year [program of study](#) for Visual Art.

Bachelor of Arts in Interdisciplinary Arts with a Specialization in Visual Art

The interdisciplinary arts major builds on the cross-disciplinary nature of the Seattle University arts departments by allowing students to choose a specialization within the arts while they also integrate courses from other art forms. For example one student interested in musical performance might choose to bridge theatre and music, while another student might combine music and visual art courses to round out a specialization in production theatre. Individual programs are designed in consultation with a faculty advisor.

The Department of Art and Art History offers an exciting and unique opportunity for interdisciplinary study in the arts. While the emphasis track is specific to studio art, this program requires students to take courses outside the chosen field; students are encouraged to explore the endless possibilities that exist between studio art and other art forms.
